Education

University of Southern California Los Angeles, CA

Master of Science in *Computer Science* with concentration in *Intelligent Robotics*

August 2013 - May 2015

Revalent courses:

- Machine Learning
- Database Systems
- Coordinated Mobile Robotics
- Natural Language Processing

Cornell University Ithaca, NY

Master of Engineering in *Electrical and Computing Engineering*

August 2011 - May 2012

Revalent courses:

- Computer Vision
- Feedback Control

University of California, Berkeley Berkeley, CA

Bachelor of Science with double major in

Electrical Engineering and Computer Science, Engineering Physics

May 2009 - August 2011

Selected Projects

Listsum, the movie and TV series recommender

July 2015 - now

Web-based movie and TV series recommender that makes recommendations based on user's rating on watched entities using machine learning techniques.

Responsible for front end development with AngularJS, recommender written in C++ and some of the backend work with neo4j. Product is expected to launch in mid 2016.

Directed Research on Coordinated Mobile Robotics

fall 2014 - spring 2015

Directed research under Prof Nora Ayanian on multi-robot path planning. Code written in Python and MATLAB.

Directed Research on Natural Language Processing

summer 2014

Directed research under Prof Kenji Sagae on parsing morphologically rich languages (SPMRL Shared Task 2014) with publication.

Responsible for exploring the best segmentation in Hebrew and Arabic (dividing raw sentences without white spaces into sequence of meaningful words.) The result segmentation with potentially correct segmentation has a F-score 0.91, compare to the 0.62 for the disambiguated set provided. Code written in Python.

Bunshu RSS Reader

2013

Web-based RSS reader client with source code hosted on GitHub. Project mostly written with Python, JavaScript, HTML and CSS. Product is currently running at bunshu.net

Skills

Proficiency in: C, C++, Python

Experience with: JAVA, MATLAB, SQL, C#, Pascal, HTML, CSS, Javascript, L^AT_EX

Knowledge in: Go, PDDL

Publication

A. Köhn, U C. Lao, A. Zadeh and K. Sagae, **Parsing Morphologically Rich Languages with (Mostly) Off-The-Shelf Software and Word Vectors**. In Proceedings of the 2014 Shared Task of the COLING Workshop on Statistical Parsing of Morphologically Rich Languages. 2014.

Language

Proficient in Cantonese and English
